

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

February 18, 1999 LB 411

for the operation of one licensed facility or one integrated system, which means more than one...either more than one facility at the same location or a system that has both a hospital and an attached nursing home. It provides for the mentoring programs that will be necessary for all people who...bear in mind I'm talking about people now who have a significant amount of education and experience in the field of healthcare administration, it provides for an administrator-in-training or mentoring program except for those with degrees or advanced degrees in healthcare, healthcare administration, or previous work experience, and for nursing home administrators dealing in the field of head injuries. The mentoring program must occur in a home for the aged or infirm or nursing home under a certified preceptor. It must be pursued as an internship part of an approved degree or advanced degree. A certified preceptor, and this is a change, is not required to be at the facility but must be available to assist with any questions and problems. A person in the mentoring program may apply for a provisional license, and this is an important part of this program in that in the event that a nursing home has a qualified person that doesn't have the required generally preceptorship they can apply for a provisional license and then are given 180 days plus the potential for a 90-day extension by the licensing board to complete the requirements for a nursing home administrator certificate. Then there's some harmonizing provisions. It also provides that a nursing home administrator's license may be placed in an inactive status and provides the requirement for reactivating the license. And then the thing...and this is...this is a change in addition to the other changes but I think it's an important...important addition to the law of the state of Nebraska. It provides for the selection of persons who apply for provisional licenses if a vacancy exists. As I said before, the license is valid for 180 days and the board may grant an extension. Relicensing...the provisional licensing requirements: must be at least at least 21 years old; employed full time, not less than 40 hours a week, as a nursing home administrator; and have no history of unprofessional conduct or disciplinary action. And then it makes some changes in the Board of Examiners for Nursing Home Administration that are further changed by the committee amendment. Senator Jensen will follow me in presenting the committee amendment, which makes some changes in the bill, the
